COBRAS take gold in Special Olympics

Last month, on November 8th, Carver sent two soccer and two bocce ball teams to Kennedy Park to compete with schools from around Yuma county in this year's annual Special Olympics.

All of the school's teams were comprised of a mix of our exceptional students and our general education students as their partners. The students spent weeks practicing before they competed at the main event. The results were amazing! All of Carver's teams came back with gold medals!

The school is extremely proud of what the teams were able to accomplish and of our students working together throughout their practices and games.

This success is not possible without all of the hard work of our teachers in our specialized programs and their paraprofessional teams. In addition, thank you to our general education teachers for selecting CARING and SUPPORTIVE students to be work as partners as well. Thank you to the families that came out to support our students and being awesome cheerleaders during the games.

Carver continues to strive to find inclusive opportunities for all students. Our hope is to build a culture of empathy and understanding between students that fosters a positive learning environment.
